

## INTUITIVE VOCAL TONING TO SUPPORT BODYWORK

Tone For Your Clients - Custom Recordings - Online Sessions

WITH VOCALIST/PERCUSSIONIST GEORGE GRANT

Intuitive Vocal Toning to Support Therapeutic Bodywork and Energy Healing

### Catalyze Hands-On Bodywork with Sound Healing

To empower both the client and the practitioner, intuitive singing has been part of hands-on healing traditions for thousands of years. Vocal Toning is extremely beneficial and supportive for many light-touch non-agenda therapies, including: Cranial Sacral Therapy, Polarity Therapy, and Reiki.

### Options: Client or Bodyworker Do Not (Necessarily) Need to Vocalize

Sound Healing and Music Meditation Skills can be practiced in silence by a client, listening to well chosen or custom made recordings.

### Listen and Learn Self Healing Skills – Before During and After Bodywork

Online with George and also with training recordings, learn Sound Healing and Music Meditation Skills.

Simple self-healing skills include "active listening" to music to amplify body sensation, body resonance, and breath work.

Learn, improve and feel immediate benefits at home. Then, with familiarity, maximize these skills during bodywork.

### Learn Vocal Toning For Your Bodywork Clients

Many of George's online toning students are bodyworkers. More and more bodyworkers include a bit of vocal toning for their clients to catalyze and support their primary modalities.

### Custom Recordings

George can make custom intuitive recordings for an individual. Listen to your personalized music journey prayer at home to practice Sound Healing and Music Meditation Skills. Take this recording to your bodywork sessions.
